Dr.Umar Azam saheb , I find a great sense of communion with u what I have right now is the dreams that you have shared and the links to so many writings and publications for free downloads. Your dreams and response show what you have been feeling as part of the Ummah and humanity. Allah is witness to all that is happening here. We just need to respond to the call for action with prayers for guidance to the more and more men and women across the lands. These days ,I am writing more on how we can communicate for the adoption of inter-faith Islamic commons for peace,justice,freedom and ecological safety.
